In this series, we provide information so students can learn how to study using... All of these strategies have supporting evidence from cognitive psychology. For each strategy, we explain how to do it, some points to consider, and where to find more information.
Concrete Examples
USE SPECIFIC EXAMPLES TO UNDERSTAND ABSTRACT IDEAS
Collect examples your teacher has used, and look in your class materials for as many examples as you can find.
Concrete Examples

Make the link between the idea you are studying and each example, so that you understand how the example applies to the idea.
Concrete Examples

Share examples with friends, and explain them to each other for added benefits.
You may find examples on the internet that are not used appropriately. Make sure your examples are correct - check with your teacher.
Ultimately, creating your own relevant examples will be the most helpful for learning.
